## Board of Regents

The job of the Board of Regents is an extensive one; it includes the handling and approving of all plans and policies concerning the University. In addition, they sit at the State Board of Agriculture and handle various agricultural matters.

The decisions of the Board include: the naming of buildings and appointments, the distribution of funds, and the awarding

of contracts and grants.

The standing committees of the Board of Regents make studies of such topics as the budget, dates of commencements, athletics, endowments, and the hospital and medical schools.

This board consists of eleven members who are appointed for a nine year term by the governor of Maryland.

Miss Helen Clark, Dean of Women

Miss Marion Johnson, Assistant Dean

## Deans of Women

Miss Eileen McCormick, Assistant Dean

The University welcomed a new Dean of Women this year. Miss Helen E. Clarke came to Maryland from the University of California where she was Assistant Dean of Students. She received her B.S. at the University of Michigan, her M.A. at the University of Illinois, and her Ph.D. at Columbia University. Besides devoting her time to the overall activities of women students, Miss Clarke has been teaching a class in counseling practice to graduate students.

The specific phases of women's life are divided between the Assistant Deans of Women. Women's housing is the major problem that confronts Miss Julia Billings. She also acts as advisor to A.W.S. and the campus judicial board.

Social and panhellenic activities are handled by Miss Eileen McCormick.

Miss Marion Johnson helps Maryland's coeds to plan interesting careers through her placement counseling.

## Deans of Men

Mr. Furman A. Bridgers, Assistant Dean

One of the most prominent persons on the University campus is the Dean of Men, Geary F. Eppley. As Director of Student Welfare, Dean Eppley comes into contact with students and student organizations acting as advisor and problem-solver.

Directing the University's Placement Services is Dean Lewis Knebel.

Mr. Dayle Royal directs off-campus housing.

Foreign students are advised by Dean Furman Bridgers.

A new member of the Dean of Men's staff is George Kaludis. His duties include the co-ordination of campus religious life and student activities.

## College of Agriculture

The College of Agriculture has the distinction of being the first college established at the University of Maryland. Since its birth in 1856, it has expanded greatly and now includes eleven departments and seventeen curriculums. A proposed project of the college is the revision of the present course of study.

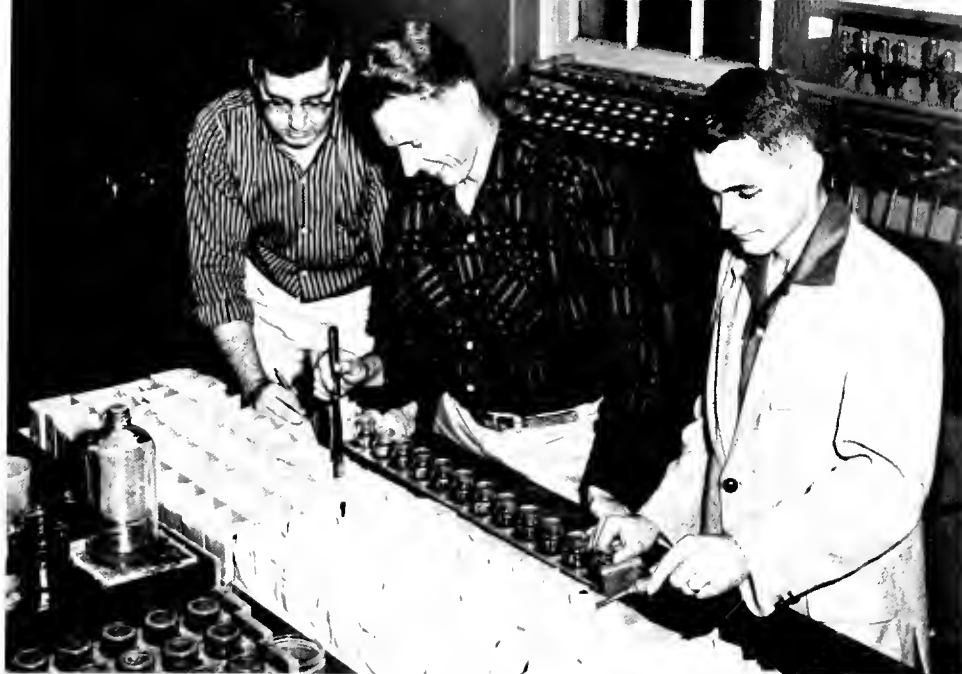

Teachers and students are, of course, concerned with classroom studies, but more important is the work in many research areas. They are also concerned with the expansion station and extension service, developments of further study in the field.

The college is proud of an increased enrollment this past year for this has not been the case for several years. This will mean more agricultural specialists whose purpose will be to promote a better understanding between business, and industry, and agriculture.

## College of Arts and Sciences

Through the efforts of the distinguished Dean Leon P. Smith the college of A&S meets the needs of a growing student population.

The program of the College of Arts and Sciences is designed to meet the needs of a broad background of knowledge. There are fifteen departments within the college, encompassing a variety of courses in the humanities, physical sciences, biological sciences, social studies, and fine arts. Since there is a great increase in enrollment from year to year, the college is constantly reorganizing and expanding. The largest of all the colleges here at the university, it has kept up to the pace of a growing campus and a changing world. It develops students, with abilities in many fields of knowledge, whose education will benefit them and society.

Familiar to all A&S students is the history lecture.

Many hours of research are spent in preparing for a term paper.

## College of Business and Public Administration

In keeping with the rapid rate of growth of the university, the College of Business and Public Administration is constantly reorganizing its curriculum to meet the needs of the student. Students of this college have the opportunity to major in such fields as accounting, real estate, marketing and transportation.

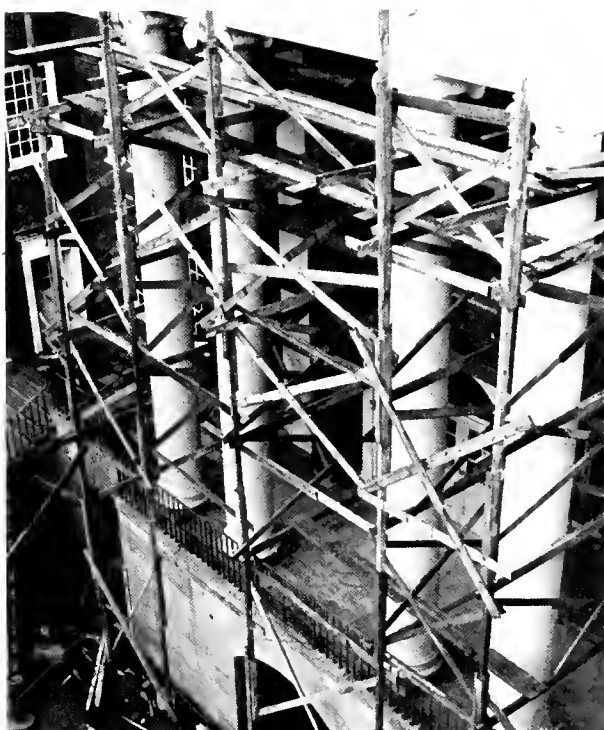

The College of B.P.A. which was created in 1942, is fast becoming one of the largest schools at the university. The college is extremely proud of its new building, the latest addition on the campus scene, which will contain many modern facilities to extend their opportunities.

# College of Education

Skinner Building, home of the College of Education.

Established in 1920, the College of Education has broadened its field so that now it provides students with innumerable educational opportunities. Upon graduation with a B.A. or B.S. degree, students are prepared for the necessary state boards. Students of the college have the opportunity to choose from among the childhood, elementary, and secondary school levels.

In the spring semester a new program for library science was initiated into the curriculum of the college of Education. Another addition to the ever-expanding program, is allowing graduate students to prepare for college instruction. The College of Education is doing a fine job in developing valuable new teachers, so much in demand.

Dean Vernon E. Anderson of the College of Education maintains a busy schedule

Students of Education recognize the importance of enthusiasm and love for children in the role of a teacher.

The health and safety of the child is uppermost in her mind.

The love of a child is the inspiration for our future teachers.

Practice teaching and observing are important in the Education curriculums.

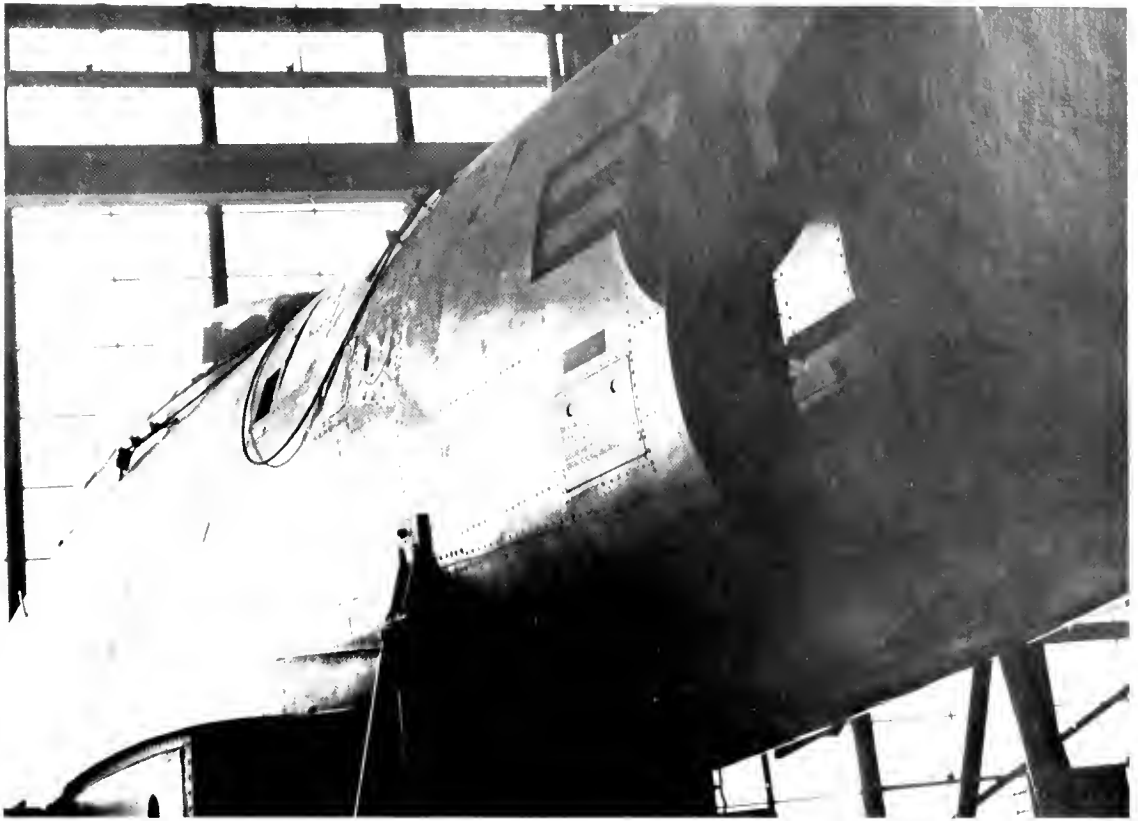

At the head of the College of Engineering is Dean Frederic Mavis

The College of Engineering covers, not only a large area of our campus, but also a large field of study. With the belief in the proposition that "chance favors the prepared mind," the department trains and produces men for professional practice, in business, industry, public service and graduate research. The student of engineering is offered a wide range of subjects in aeronautical, chemical, civil, electrical, and mechanical engineering.

Home Economics, at one time, merely encompassed the production of food, shelter and clothing for the members of the family. Today, the area includes art for application in the home and industry, child development and family living, clothing and textiles, and merchandising and family economics.

In the field of nutrition, a group of students are carrying on an interesting experiment. The purpose of this study is to find the interrelations existing among nutrients and their effect on health. Volunteering students, who are fed specially prepared meals three times a day, are carefully observed to see what reactions the diet has on their systems. This is just one example of the varied studies of the department of Home Economics.

The college of Physical Education, Recreation and Health provides preparation for a Bachelor's degree in the curriculums of physical education, recreation and physical therapy.

In our world today physical education has great effects on society. Aside from the influence of heredity and nutritive condition, it is a source for producing vitality and good citizenship. In this machine age recreation plays an important part because of more free time. To keep physical education and recreation alive requires the education of people in skills and attitudes. The college recognizes these principles and regulates their programs of activity as to the desired outcome for its students.

Room 214 of the Skinner Building — office and home of the Graduate School.

Since its establishment in 1918, the Graduate School has administered and developed programs of advanced study and research for graduate students in all branches of the University. The School is under the jurisdiction of the Graduate Council with the Dean of the Graduate School serving as chairman.

In each of the over fifty departments, can be found a genuine spirit of inquiry. From applying for admission, to taking the modern language examination for Ph.D. requirement, to depositing a thesis, the days of the graduate student are days of research and scholarship.

## Baltimore Campus

Many Maryland students attend the University at the Baltimore Division, for it is here that the professional schools of dentistry, pharmacy, medicine, law, and nursing are located.

The Baltimore Campus is truly rich in history and in professional endeavors. The School of Dentistry is the oldest dental school in the country; the School of Pharmacy was established in 1840; the School of Medicine is the third oldest school of medicine; the School of Nursing was founded by a student of Florence Nightingale; and the School of Law is traditionally known for preparing many men and women, now eminent in their field.

Today, beautiful new buildings have been added to the physical plant. Just completed this year is a modern, well equipped Student Union housing a cafeteria, snack bar, and rooms for student use. The library contains a spacious auditorium and has books from all the schools. Future pharmacists are fortunate to have a new building in which to work and study.

Though the Baltimore and College Park Campus are separated in terms of distance they are similar in their administrative operations. We are proud that both sites can be called The University of Maryland.

Within the European Division the Munich Branch has been established for college-age dependents who may take their Freshman and Sophomore years abroad. They live and study in a stateside campus atmosphere, and a full program of liberal arts studies is provided.

Since Europe is provided as their campus, Munich Branch students take advantage of the many guided tours offered to them. The learning and understanding of the different cultures surrounding them has become an integral part of their college life abroad.

# Mortar Board

Membership in Mortar Board is the highest honor a Senior Woman may hold. At May Day, the Mortar Board tapping bestows recognition upon those Junior women who excel in leadership, scholarship, character and service.

Since founded at the University of Maryland in 1934 by Dean Adele H. Stamp, the Mortar Board chapter has sponsored several annual activities; the Homecoming Mum Sale and the "Smarty Party" for Freshmen women with 3.0 averages or above. This year the Maryland Chapter was hostess to representatives from the Mortar Board Chapters from surrounding colleges and universities.

ARMORY

Col. Theodore Aylesworth, Professor of Air Science, discusses the subject he is most familiar with.

# A F R O T C

Col. Aylesworth and Mr. Longerbeam discussing the weekly drill.

Cadet Col. F. T. Longerbeam, Cadet Commander for the Spring semester.

This year marks a change in the A.F.R.O.T.C. at the University of Maryland. First-semester Freshmen and second-semester Sophomores are no longer attending classes. However, the University requirement for four semesters of R.O.T.C. is still being fulfilled by having these cadets attend drill. The cadets must also take a designated course in some other department, the grade in which is also their grade in Air Science.

## Summer Camp

Every year, the advanced cadets who have completed their junior year in college go to summer camp. This encampment lasts for six weeks and is held at many of the Air Force Bases in the United States. The purpose of summer camp is to bring the cadets into intimate contact with the Air Force. Although the schedule is long and exhausting, it is also well rounded and beneficial. The pictures on this and the following page give some indication of the training.

# Freshman Prom

Freshman girls blossomed as the Class of 1964 come out in force for their first University prom.

Hard work and ingenuity converted the scene to a proper setting for an "April in Paris" evening. With an eye toward beauty, the frosh selected Ruth Hatfield as their queen with an equally lovely court.

The enchanted, though temporary, Parisians began their social career of Moryland with a resounding success.

Seasoned hands already, the Juniors are striving for that day in the not-ta-distant future when they will be Seniors. They prepare themselves academically as well as organizationally. The Junior year is highlighted by the Junior Prom where Miss Maryland is selected and May Day, a tribute to Senior Women.

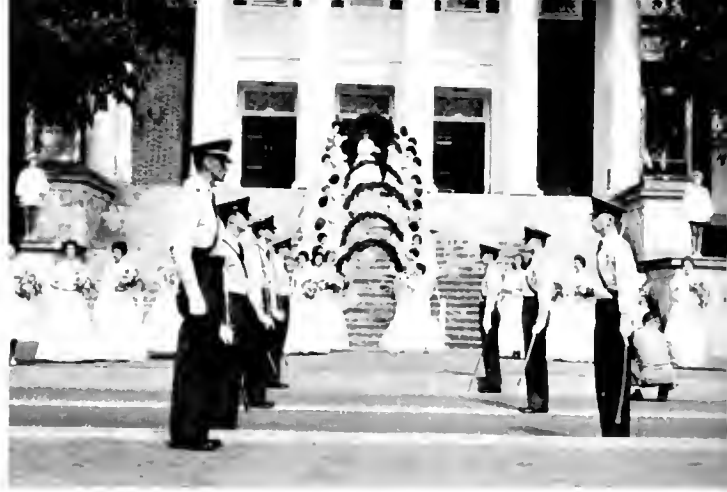

The Junior year is perhaps one of the fullest and richest and when it draws to a close Juniors can't help but remember happy times.

# May Day

Each May the Mall is transformed into a May Queen's garden, a tradition begun by our former Dean of Women, Adele Stamp. The celebration is given in honor of the Senior women by the Junior women.

This May Day had an International flavor. The May Pole dancers were dressed in blue and white, symbolizing the United Nations. The Freshmen women opened the May Day Program with an International March and this theme was carried through the whole program, prepared for the entertainment of the Queen and her Court.

A ROYAL APPROACH. The May Queen and her court will march through these flowered arches raised in her honor by Senior women.

As the pageantry nears conclusion, the appearance of the Mortar Board members in their somber black caps and robes creates a stir of anxiety in the audience. Making their way through the mass of spectators, these Senior women tap their new members and draw them into the line of bobbling caps. The tappees are Junior women who are chosen for their outstanding scholarship and service to the University. It is the highest possible honor for a coed to receive.

Miss Birute Penkiunas

A highlight of the social season at Maryland is the Junior Prom. The Prom is given by the Junior Class in honor of the Senior Class. The big moment of the Prom is the crowning of the Queen of the Junior Prom who will reign as Miss Maryland.

Again this year Indian Spring Country Club played host to the prom. The evening was kept lively by the bands of Tommy Dorsey under the direction of Warren Covington and Billy Butterfield's jazz band.

Jack Poor made the selection of Miss Maryland from photographs sent to him by the Prom Committee. His choice was pretty Marlene Harris.

This year's Junior Prom will long be a pleasant memory due to the hard work of Ellen Bubeck and Gene Rosengarden, prom chairmen, and their committee.

## The Senior Class

Seniors, highest rung on the ladder at the undergraduate level. For many this is just a stepping stone to higher education but for most it is the next step away from being on his own.

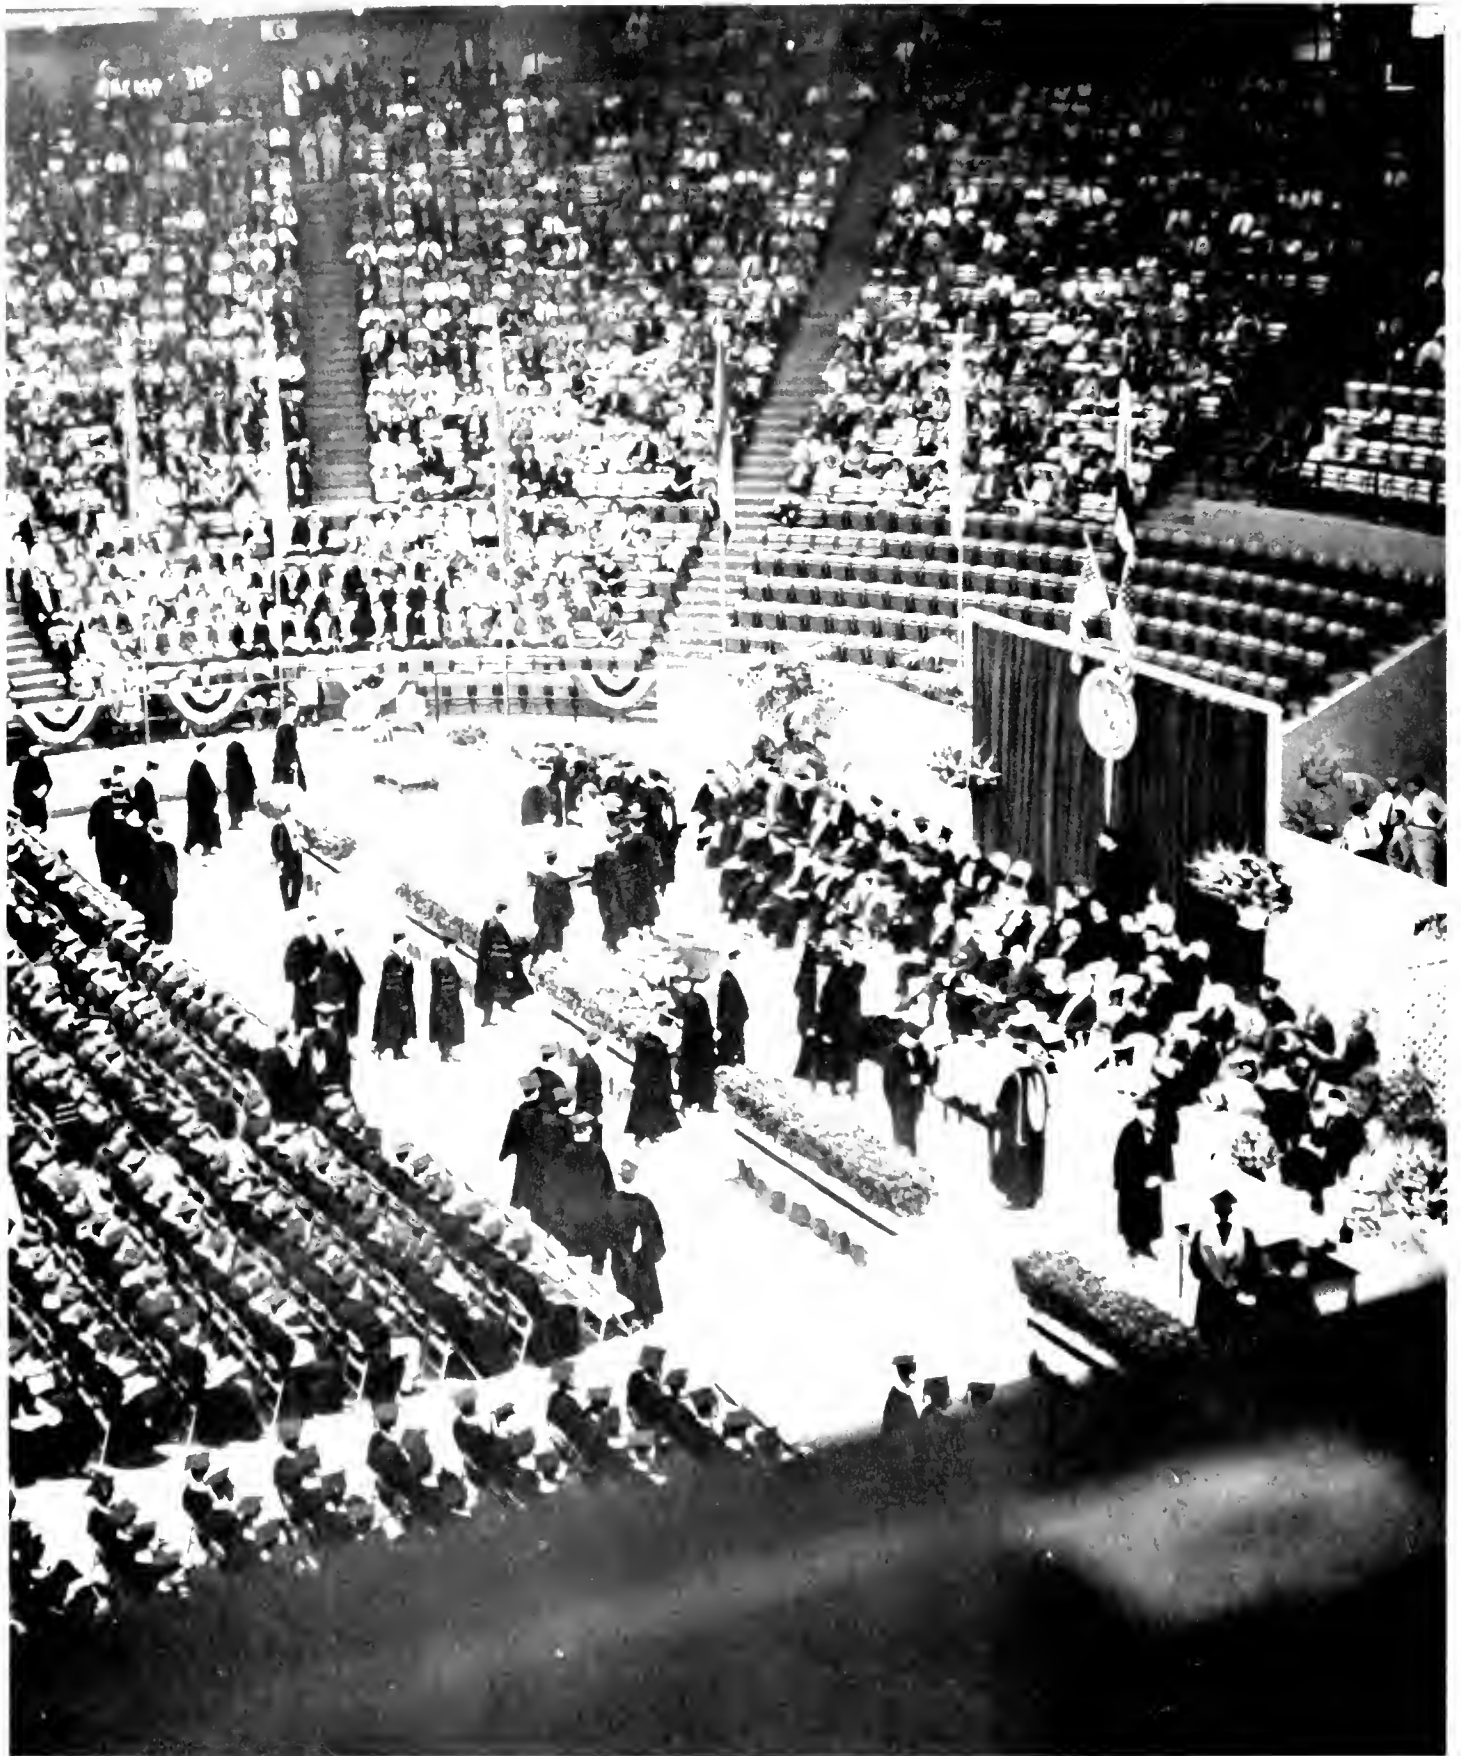

Looking back, the Senior has many memories of the University of Maryland; some fond, some not so fond. The hours of study, the many more hours of worry, the weekends of fun;

these will remain only as memories.

The Senior Class has to their credit; class excitement of their freshman days, a successful carnival of their sophomore days, and a beautiful prom of their junior days. They have to look forward to; an entertaining Senior Class Presents, a happy prom, and graduation.

COMMUNICATIONS

# Publications and Communications Committee

The guiding force behind campus communications is the publications and communications board which meets monthly. It is composed of the editors of **Diamondback**, **Terrapin**, **Old Line**, and the station manager of WMUC, their advisers, representative students not connected with publications, and faculty members. The Faculty Senate Committee on Student Publications and Communication's exists to hear policy and procedure reports from student publications and the radio

station, and to deal with criticisms of these organs. The committee also attempts to solve any problems that may arise.

The committee is responsible for seeing that the University policy of accuracy, truthfulness, sincerity, and a sense of decency and decorum is carried out. The board appoints persons who will adhere to this policy to executive positions on the publications.

## Diamondback

"That the public may know" is the purpose of the **Diamondback**. It exists to inform the students, faculty, administration, and the University at large.

To achieve its purpose, a tremendous amount of work is put into the four issues per week by the four separate staffs which are directed by the editor-in-chief. Much footwork is necessary to cover this big campus and to dig up news tips. The tips then are expanded into stories, written up, and proofread. Layouts are drawn up by the editors, pictures are taken and cropped, and headlines written.

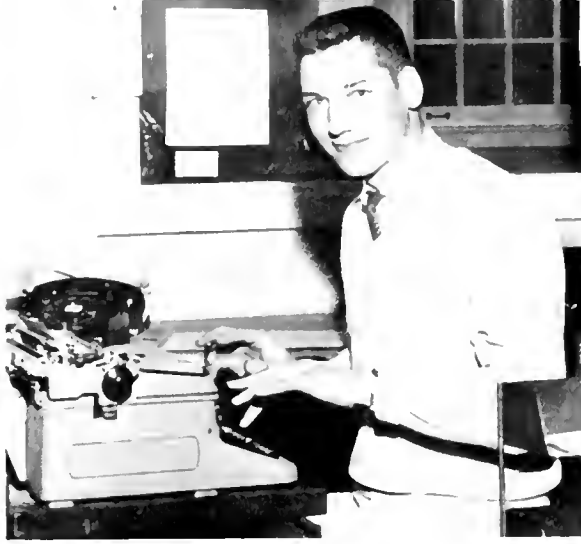

The staffs, working in offices cluttered with discarded stories and empty coffee cups, often must wait hours for late stories so that the students may be informed, as soon as possible, of campus activities.

In achieving the purpose of the **Diamondback** this year, the University's position on the issue of Frostburg State Teacher's College merger with Maryland was clarified. Problems of snow removal on campus were presented, and Homecoming, political conventions, and elections were covered. The **Diamondback** also tried to bring about a larger independent's vote by showing the need for organization and responsibility on the part of independents.

Uppermost in the minds of the **Diamondback** staff is the need for a University press. This would enable the paper to give the students "today's news today," rather than "yesterday's news tomorrow."

## WMUC — The Campus Voice

"This is WMUC, 650 on your dial, Radio Voice of the University of Maryland," . . . the station identification heard six evenings a week by students on campus from their own radio station.

The station plays the newest records, gives news of campus events, up-to-the-minute national news, and local news to keep the students informed. To improve the flow of information between the administration and the student body, a new show, Campus Spotlight, has been instituted. On this program student leaders meet with Dean Borreson to discuss campus problems and their possible solutions.

WMUC also provides an opportunity for students interested in radio to get practical experience in all phases of radio operation.

Constantly widening its scope of activity, WMUC broadcasted for the first time this year the returns of the presidential elections and debates between candidates for SGA offices.

The station also features a half hour panel show taped in Tokyo by the University College.

# Old Line

The OLD LINE magazine, not to be confused with the party, was first printed in 1930. It is published five times yearly, and is an excellent outlet for campus creativity.

Edited by Margie Miller, the issues of the OLD LINE make their appearance in various forms, one as a parody of LIFE magazine. They contain such features as the "Old Line Girl of the Month," the "Little Jester," and much humor — for, after all, humor combats apathy! Cartoons, old and new jokes, and satires are also included. The serious side is not neglected and appears in the form of photo essays, features, and the Maggie Awards given to the "best" in University Theatre.

The sum total is a highly entertaining campus magazine, content subject to the whims and caprices of the staff.

# Expression

EXPRESSION, the university literary magazine, has been in existence for five years. It has developed from a small mimeographed paper into a highly polished magazine, which is published semi-annually. Eugenia Likens heads this year's staff, which is comprised of twenty students. Serving as faculty advisers are Rudd Fleming and Leonard Lutwack.

Expression offers an opportunity for the publication of student creative writing in the form of poems, short stories, plays, and essays. This year a new editorial policy opened another area of "expression" to university students. The magazine printed sketches and photographs of sculpture and paintings created by Maryland's aspiring artists.

The M-BOOK has been called the "Freshman Bible," and this certainly is true. Every year during Orientation Week, the upperclassman can see hundreds of young Freshmen, clad in gold and black dinks running around campus with their noses literally buried in their M-Books. Far everywhere that a freshman is liable to go, the M-Book has been there before, and the Maryland newcomer has everything all mapped out for him!

This year's M-Book was filled with new things for the new freshman to do, goals to strive for, high spots to hit (off campus). The M-Book is indispensable to every freshman who spends all of his spare time carefully learning the Maryland songs and singing them with joviality and conviviality!!

## 1961 Terrapin

The 1961 TERRAPIN is the product of many hours of work, many empty coffee cups, and many headaches.

A large staff, armed with grease pencils, proportion rules, copy paper, and lots of ideas went to work early in the fall. Under the editorship of Pam Clayton and Sandy Goody, the Terrapin evolved — bit by bit — with the theme "The Spirit of Maryland." The staff was confronted with the traditional yearbook problem of — no photographer at the right time, or no organization at the right place, but after seemingly thousands of retakes all of the pictures were "in."

And so, this is the TERRAPIN — presenting what everyone remembers about Maryland — the way the campus looks, the many clubs and honoraries, the extra-curricular side of college life, the academic side, the SPIRIT OF MARYLAND.

# Pajama Game

The spring musical was a kind of lighthearted adventure in industrial folklore. In the appropriate setting, a hassle occurs between garment workers and a pajama factory president. The gay, funny, fast moving show was adopted from Richard Bissell's satirical novel "7½ Cents."

# Drama Wing

Drama Wing set several "firsts" in their four year history during the 1960-61 season. The first honorary member, Julie Harris, was initiated in November. Drama Wing was the first college drama group to fly intra-state to a performance. Two casts performed the same night for the first time last January.

Premier performances were given in Virginia and Pennsylvania taking Drama Wing into neighboring states.

In its four years of operation, Drama Wing has presented 196 performances; traveled over 8,250 miles; and played before more than 18,450 people.

Broadway star, Julie Harris becomes the first honorary member of the University of Maryland Drama Wing.

Lyl Wray broke all records in winning the 1960 Drama Wing Award for the most performances

Two casts give some play, same night, 125 miles apart.

The only male member of this year's Dramo Wing cast is Wade Phillips who plays the father in "... And You Never Know."

Moyor Winslow F. Burhans and representatives from St. Mary's school welcome Dramo Wing members as they arrive in Hagerstown after the first intro-state flight by a college play cast in the United States.

The Band presents a program of sparkling music and intricate maneuvers at each home football game and accompanies the team on at least one extended away game. Haydn, was presented for the Thanksgiving holiday. They sang Brahms' "Requiem" in the Memorial Chapel on Palm Sunday.

This past June, the Chapel Choir performed at the Pablo Casals Festival in San Juan, Puerto Rico. Included in the program were Beethoven's "Choral Fantasy" and "Alta Rhapsody." They also sang Haydn's "Seven Last Words of Christ."

Each semester the Orchestra presents one concert to the students with an instructor of the Music Department featured as guest soloist. This year Mr. Berman was the violin soloist with Mr. Stuart Gordon acting as guest pianist. In addition to these concerts, the Orchestra played the instrumental accompaniment to the Choir's "Messiah" at the A.W.S. Christmas Pageant. Sections of the Orchestra also accompany the University Theater musical productions. This year their production was "South Pacific."

Mr. Joel Berman conducts the Orchestra with "thumbs up" in this particular selection.

Bill Cobey, director of athletics

Bill Cobey is in his fifth year as Director of Athletics at the University of Maryland. One of the most popular and outstanding men in his field, Bill has seen the Terrapins dominate the Atlantic Coast Conference Championships in the twelve recognized conference championship sports.

We can thank Joe Blair for the fine job he has done for us as publicity director. Whenever you see a story in a local paper or hear a report on television concerning the Maryland Terps, you can be sure that Joe had a hand in it.

"Duke" Wyre is in his fourteenth year as head trainer at

## Coaching

The popular head coach with his unusual formations led the Terrapins to a 6-4 season. This was our first winning season since 1955.

A big job has been handled well as Nugent turned TV personality on Sunday afternoons. The young coach captured the appeal of all those around him by proving himself a capable coach and a refined gentleman.

# 1960 Terps

**Varsity 34**

**Alumni 6**

An old-timer pulls one in.

In a premonition of things to come, Nugent's boys manhandled a star-studded lineup of alums in a 34-6 rout before 4,500 spectators.

Capitalizing on the breaks and playing near-perfect football, the Terp eleven under Navak and Betty held the Alumni to one score. The hard tackling and aggressive rushing held Tomburella and DeStefana to a fantastic minus one yard in rushing.

Gary Collins had an outstanding day as he caught two scaring passes and recovered an Alumni fumble on their own 9 yard line.

All in all it was a very impressive day for head coach Tom Nugent and his boys. It certainly served to give us an insight into next season . . . a winning season.

The Terrapins scored the first three times they got their hands on the ball as they defeated "shell-shocked" West Virginia 31-8. Had it not been raining, the score might have been worse.

All three units shared equally in the victory. Maryland had the ball ten times and scored on five occasions.

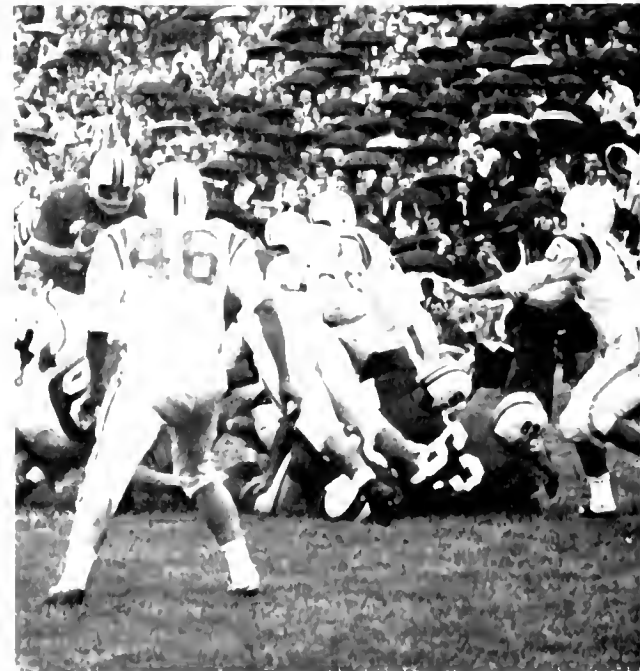

In the second half the Terps quit passing but still managed

to score twice. They scored once on a drive and late in the game as a result of an interception.

On defense the Terrapins held the Mountaineers to only six first downs rushing.

Dick Novak, Dale Betty and Gary Collins stood out on offense for the Terps.

31,000 fans sat in the warm sunshine and suffered through a 34-0 loss at the hands of the powerful Texas Longhorns.

The game was rated a toss-up but mid-way in the first quarter Texan Jimmy Saxton took a quick-kick and ran 69 yards for the first score of the game. After that there was no stopping the Longhorns.

The Terps muffed three scoring opportunities in the first half. They went to the 3 yard line and to the 16 yard line of Texas but interceptions killed the Terrapins' chances. The Terps were on the Texas one yard line as the gun sounded to end the half.

In the second half the Terps were still eager but the Longhorns' experience proved too much for the game Maryland soph.

## Duke 20 — Maryland 7

Three wayward passes paved the way for all three Duke touchdowns as the Blue Devils topped the Terps 20-7 before 25,000 fans at Byrd Stadium. Following the interceptions, Duke marched 35, 25, and 61 yards for their scores.

The Terrapins scored in the fourth quarter after Joe Mona recovered a fumble on the Duke

34 yard line. Seven plays later, Dole Betty sneaked into the end zone from one yard out.

The Terp defense stood out as it held the nation's number 1 offensive team to only 225 yards rushing and passing. Their previous average was 526 yards a game.

Maryland scored first on a 31 yard field goal by Vinnie Scott. However, late in the second quarter the Wolfpack recovered a Terp fumble and went 44 yards to score and take

over the lead.

In the fourth quarter, Gary Collins got off a tremendous punt that rolled dead on the State 6 yard stripe. An attempted punt was blocked and tackle Gordon Bennett recovered for Maryland's first touchdown.

Clemson 17

The Terps turned the tables on seventh ranked Clemson by coming from behind late in the fourth quarter and winning on a pass from Dale Betty to Gary Collins.

Clemson, known for its ability to come through with a big fourth quarter, saw a team that trailed 10-0 at half-time, 17-7 in the third period, snatch itself up and give the 18,000

fans a real thrill in staging a great upset victory.

History repeated itself as it was a Betty to Gary Collins pass that wrecked the Tigers' hopes last year at Clemson. Betty was the man of the hour as he fired three TD passes. Sankovich was also cited for a fine game on defense. Clemson was unbeaten since it's last game with Maryland.

A two point conversion, the first TD was the difference as Maryland topped Wake Forest 14—13 in Winstan-Salem.

Wake Forest scored first as All-America Norman Snead connected with a 32 yard touchdown pass.

Fullback Rex Collins took over and on a 69 yard scoring drive he gained 43 yards. He climaxed the drive by scoring on a 10 yard run. Richie Novak passed to Hank Paniatowski for the all-important two point conversion.

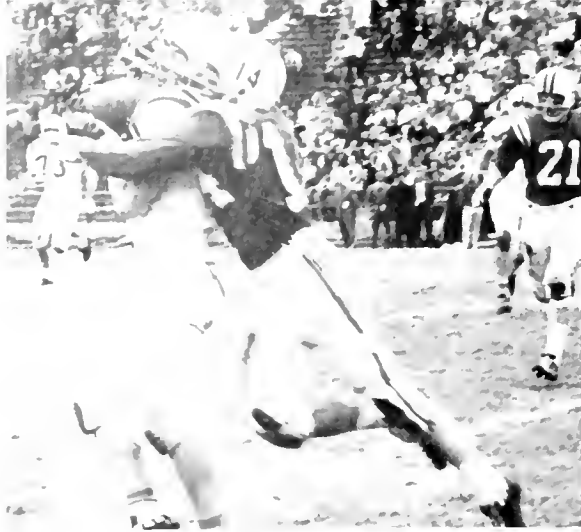

Snead's passes led to Wake Forest's second TD but the Terps came back and marched 63 yards for their winning score. Fullback Pat Drass carried on 12 of the 17 plays and gained all but 13 of the 63 yards.

Dale Betty led Maryland to its third straight win as the Terps smothered South Carolina 15-0 in front of a Homecoming crowd of 21,000.

Betty moved the Terrapins on drives of 48 and 88 yards to paydirt. Rex Collins rammed over from the 3 for the first score on a play set up by a phenomenal catch by Gary Collins.

Late in the fourth quarter the Terps moved 88 yards in four plays. The last 28 was covered on a pass from Betty to Poniatowski.

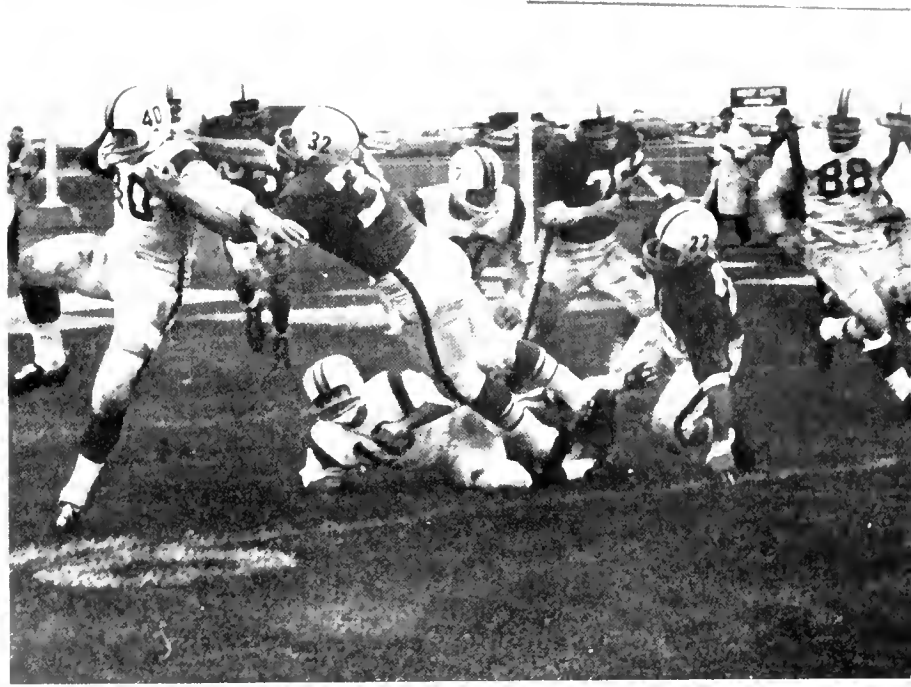

Betty completed 13 of 18 passes during the game. Gary Collins also had a tremendous afternoon on offense and defense. Time and again he caught passes while surrounded by defenders. Rex Collins was the game's leading ground gainer with 44 yards.

On a rain-soaked field in the mountains of Pennsylvania, the Nittony Lions of Penn State rolled over the Maryland Terps.

In a game that saw the Lions capitalize on every fumble and interception, and more than double our yards rushing — 267 to 105 — Maryland's Gory Collins was named linemen of the game. Collins caught five passes for 85 yards and was

outstanding on defense.

Moving mostly in three and four yard chunks, the Lion eleven gnawed its way through the Maryland defensive unit with Dick Kerr and Galen Hall doing the running. Maryland's touchdown came when Joe Mona recovered a State fumble in our end zone.

The Terrapins came from behind in the last 65 seconds to defeat North Carolina 22-19 before a crowd of 26,000 in Chapel Hill.

The rousing finish was set up by a 23 yard interference penalty which gave Maryland the ball on the Tarheel one yard stripe. Dole Betty scored a moment later, but for some unexplained reason the ball was moved back to the three. Betty handed off to Pat Drass who was supposedly stopped at the 3. He rolled off the pile and went around right end for an apparent score. However, a quick-whistle brought the TD back. On the third try Betty connected on a pass to Gary Collins to put the Terps on top.

The Terps belted Virginia 44-12 to finish their first winning season since 1955.

Coch Tom Nugent reached deep into his bag of tricks for this game. The most spectacular play came early in the second period. Richie Novak caught a kickoff in the end zone, ran to the 10 yard line and orched a lateral pass across the field to Dennis Condie who proceeded to roce 91 yards up the sidelines for his third TD of the day.

The Terp offense stood out as it showed a total of 397 yards. They rushed for 205 of the total. Standouts for the day were Dennis Condie, Gary Collins, Dale Betty, and Vinnie Scott who booted in six of six conversion attempts.

## Trackmen A. C. C. Champs

For the fifth year in a row the Maryland track team overwhelmed all competition to become the ACC Champions.

The Cindermen's dual meet record this season was an impressive one with four victories and only one loss. Far more superior, however, is their overall record of 59 wins and only 10 defeats. This is evidence enough that Coach Jim Kehoe has moulded his men into a team second to none on the east coast.

Leading the team to victory were such old hands as Nick Kovolokides, Bill Johnson, and Bjorn Anderson. All three men now hold at least one indoor and outdoor ACC record. Nick Kovolokides holds the indoor and outdoor shot-put records plus the ACC javelin record.

Coach Kehoe hopes to add a sixth year to his string of ACC championships, and all signs indicate that his wish will be fulfilled!

TKE won because of aggressive ball playing and many hours of hard practice, which made for a well organized brand of ball. In 1958 the team began its winning streak. TKE lost a mid-season game, but after that never faltered, and won its last five games and the championship. In 1959 this colorful ball club won every game. Their offensive unit scored a total of 316 points. Their defensive unit held their opponents to a mere 8 points. ## M Club

The Maryland M Club brought pro-basketball to the University this year, with the help of their alumni. Two pro games were played in Cole Field House — both were sell-outs, and enthusiastically attended by Maryland students and residents of the surrounding area. The M Club did not stop with this success, however, they also sponsored Jack Kramer and his tennis all-star group.

The M Club jacket worn by members helps to keep up the Maryland sports tradition. This jacket was designed to give unique distinction to the sports club as a group.

The chief function of the club is to bring together the leaders of all phases of University athletic activity to discuss ideas for the betterment of the University's athletic program.

## The Inter-Fraternity Council

Every two weeks the presidents and representatives of Maryland's twenty three fraternities meet and discuss fraternity problems and plan co-operative projects.

This year the IFC sponsored the presentation of Harry Belafonte, Greek Week, and the IFC Ball. In addition to these social activities, the IFC sponsors an academic program designed to raise the averages of fraternity pledges, and works in many community projects. This year the IFC and Pan-Hellenic Council worked together in a carnival to raise money for the Cancer Fund

The Panhellenic Council was formed to promote the mutual interests of the eighteen sororities on this campus. Supported by the loyalty and interest of the sorority women it has gone far toward its goal of helping with problems concerning sorority standards, scholarship, campus activities, and inter-sorority functions.

The cooperation of the groups in Panhellenic has provided a firm basis for the Panhellenic ideals of dedication to service, honor, and uprightness in all human relationships which are basic to the life of every sorority.

This year the Panhellenic Council welcomed a new sorority to our campus — Alphi Phi. In March, Panhellenic sponsored a workshop which gave the sororities an opportunity to discuss and evaluate their problems and plans.

"Many men in many activities" — that's the ATO's motto. The men of the Maltese Cross can be found in almost every phase of campus life. ATO's had a fine season in sports. Singing and a proud place in the parade line — placed in the top three for the eighth straight year at the IFC sing. Plenty of hard work gave the ATO's a ring-side seat as they won first prize in the September carnival. Greek Week's Fine Art and Drama is sponsored by ATO. ## Phi Sigma Delta

What? Collecting hi-fi's and TV sets? Why not? The Phi Sigma Deltas find their new hobby both profitable and economical. With two hi-fi's and one television already won, they have big hopes of more to come. But this isn't their only collection. A new house is in the near future. A tragedy has hit the Phi Sigma Delta house. The brothers mourn the death of their dog, Caesar, who was killed in a car lion. Campus activities find a place with the Phi Sigma Delta. President of the Free State party.

Sophomore legislature, engineering honoraries, cheerleaders, all carry the name of the fraternity.

# Phi Sigma Kappa

"And if I am elected" . . . a familiar Phi Sig Expression, for they hold many political offices on campus . . . Current offices include executive vice-president of IFC . . . treasurer of Men's League . . . Sophomore Class Vice President . . . and elections board co-chairman . . . Also active in intramurals the brothers participate in almost every sport . . . A touch of the holiday spirit as the Phi Sigs won the Men's League award for the Christmas house decoration . . . Socially speaking, the brothers remember most of all the spring weekend (formal?) . . . at the beach.

## Pi Kappa Alpha

Pi Kappa Alpha — one of the oldest and largest national fraternities ... founded in 1868 by six confederate veterans

... Delta Pi chapter here at Maryland ... chartered in 1952 ... present here for several years and now in the process of reorganization ... PKAs are looking for men willing to accept the challenge of building anew ... With this in mind the nine members they now have pursue an individual program ... are working ambitiously for leadership and scholarship

# Sigma Alpha Epsilon

Big mystery on campus! . . . Who has the SAE's second lion? . . . Known and recognized by the not-always-so-white lions who guard their house, the busy SAE's haven't had time as yet to track down their run-away lion . . . Posters, speeches and "bandwagons" . . . It's election time again and the SAE's proudly claim Freshman and Senior Class presidents . . . When football season comes into the spotlight, the brothers are well represented as the "Red and White" takes the field . . . Sparking the SAE social year is the Christmas program (co-sponsored with AWS), the Bar-Beta and the Spring Formal.

Dim lights and late hours . . . That's what it took as SAM placed second in fraternity scholarship competition . . . SAM proves again that "2" is the lucky number by tying for second in the Homecoming float contest . . . Junior SAM's are standouts . . . They claim vice president of the Junior Class . . . treasurer of the Junior Class . . . overall chairman of the Junior Prom . . . Activity wise — the treasurer of the Free State party and the co-chairman of the card section wear SAM pins . . . As for parties — Their winter weekend at a ski lodge is by far their most famous social event.

# Sigma Chi

Sigma Chi is best known to all for its participation in athletics and campus activities . . . last year Sigma Chi won the volleyball championship and finished close to the top in the other athletic events . . . In the realm of campus activities they rate high . . . President of the Junior Class . . . the business manager of the Diamondback . . . station manager of W.M.U.C. . . . a member of ODK . . . Secretary and Rush Chairman of I.F.C., and many other office holders . . . Of course there are many social events during the year — the most outstanding and well known is the Sigma Chi Sweetheart Weekend.

## Sigma Nu

A small group with big plans . . . Being one of the smallest fraternities at Maryland doesn't stop the Sigma Nus . . . they are represented in a broad selection of campus activities . . . In varsity sports . . . one of the brothers set a new record for cross country at the North Carolina course . . . Other activities include chairman of the Sophomore Carnival . . . assistant chairman of FOB . . . and officers in the Free State Political Party . . . The Pirate's Ball and the White Rose Formal spotlight the Sigma Nu's social calendar.

# Sigma Phi Epsilon

Red is the color! . . . The Sigma Phi Epsilons display their choice of color with a red roofed house bordered with red shutters and opened with a red door . . . The color also seems to appear on many committees and clubs as their attire is accented by a red vest . . . But wild as their choice of colors may be — the Sigma Phi Epsilon's record is such that they are a byword on campus for dependability . . . Their showing at the blood drive . . . the winning float at homecoming . . . their sweetheart chosen as homecoming queen . . . shows that the red men of College Park are always in the midst of campus activity.

## Sigma Pi

"If you can't pass, build a hot-rod" — That's the favorite saying around the Sigma Pi house. They are especially proud of their new parking lot — perhaps, for the hot-rods they are constantly working on. The latest fad — European travel — recommended to all. Parties — parties — all through the year — accented by the Orkney Ball in the spring. A touch of humor was added by the pledgees and as one of the pledges completed his paddle — he pulled down. The Sigma Pi house is well guarded by Chan — probably German police dog whose name is unknown.

# Tau Epsilon Phi

Look who's back! . . . Yes, the TEPs are back on campus . . . But did they really leave? . . . No one will deny that they were with us at the IFC Sing . . . TEP pledges set an early pace as three members won Freshman Class offices . . . The brothers are out for blood too — at least in the campus wide blood drive which they sponsor . . . Besides varsity sports representation, their traditionally strong intramural teams were runners-up in basketball and volleyball . . . Social calendar is full of many weekend parties . . . Annual Carolina trip is highlight of the year.

# Theta Chi

Sleeping through exams is traditional at the Theta Chi House . . . But they manage to stay awake long enough to excell in various activities . . . In interfraternity sports, they are consistently close in the competition . . . Members excell in activities such as the Lacrosse team . . . chairman of Rush Forum . . . Co-chairman of Greek Week. . . . The French party in the spring — Barnyard Stamp in the fall, add highlights to their social calendar . . . Keeping watch at all hours is Shelly, their friendly collie, who enjoys his home in their beautifully remodeled house.

## Zeta Beta Tau

Activities need leaders and the Zeta Beta Taus meet the demand . . . IFC president . . . Greek Week chairman . . . Old Line party president . . . Homecoming chairman, just to note a few . . . Mention any intramural sport and the ZBT's are ready . . . Basketball found them taking first place in their division . . . bikes and bridge! . . . An odd combination . . . But not to the ZBT's who sponsor both the bridge tournament and the Greek Week bike race . . . Sports cars prove to be the favorite at the white mansion on Knox Road — ZBT's captured first place in Gre-Kana . . . Although the Z'bes didn't place in Harmony Hall, they certainly livened up the show!

Memories of the Class of '61

Just think back awhile  
 to our freshman year .  
 Remember the first day —  
 your dink?  
 your nome cord?  
 your first registration —  
 long lines, confused faces,  
 that wonderful feeling  
 when you staggered out  
 o "Fullfledged Freshmon!"  
 Remember . . .  
 freshman elections,  
 Tip, Barry, Joffe,  
 ond the rest of the gong?  
 And the prom  
 they gove us?  
 Yes,  
 our freshman year . . .  
 o year to remember,  
 and one  
 I'll never forget.

. . . John Hogedorn

Freshman Year

# Sophomore Year

What I remember most about our sophomore year —  
the carryover of enthusiasm from the freshman year to a new life as a sophomore . . .  
the sophomore prom, the cheers and happiness when June Lee Walker was crowned queen of the sophomore class . . .  
the carnival with all the class turning out en masse . . .  
the casualties, both academic and personal . . .  
the remaining class members grouping closer together . . .  
and the many happy times which have a place in the memories of college life.  
. . . Buck Griswold

## Junior Year

Our junior prom,  
in a whirl of snow,  
couples floating  
to the music of  
Lionel Hampton,  
Miss Maryland Phyllis Lever  
crowned, with a dazzling  
smile . . .  
a peaceful May afternoon,  
the traditional class dances,  
outstanding women  
honored,  
and the delighted squeals  
of the new Mortar Board toppees  
these  
we will remember.

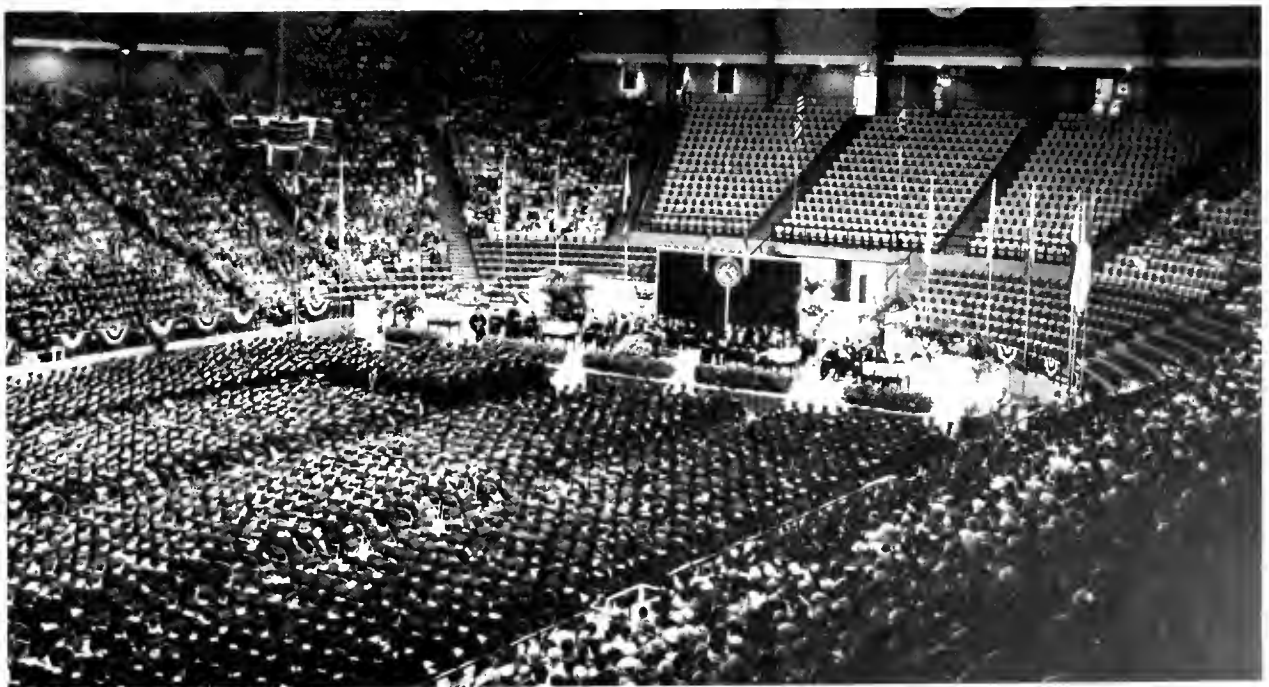

... Kris Struebing

After four years of striving  
for graduation,  
for our degree,  
we don't want to leave  
after all . . .  
when we look back  
at the hard times  
we can laugh —  
now,  
'though they weren't  
funny at the time.  
But our memories . . .  
of the campus,  
of political conventions,  
of the Senior Class Presents —  
Jonathan Winters,  
Chris Connor, and  
Les Elgart at the prom . . .  
will always  
linger with us.  
. . . LeRoy Dietrich

## The Editor's Page

A yearbook means many things to many people — to the staff it is pride in their accomplishments, to the student it is a record of a year of his college life, to the alumni it is a glance back into the past. We have attempted to do all of these things in the 1961 "Terrapin." Our theme is the "Spirit of Maryland," and we hope we have captured it for you.

Those of us on the "Terrapin" staff cannot help but breathe a sigh of relief as we realize that everything has been sent in to the printer. We think that we wouldn't do it again for the world — we look back on a year filled with innumerable trips to the third floor of the Journalism building, photography problems, phone calls, meetings, and much midnight oil. But when we think of the truly wonderful experiences we had in gathering all of this material, we think that maybe we might take just a 'small' job on next year's book.

At semester break we learned that our chief photographer, Walt Fischer, was forced to drop out of school because of a serious illness. The loss of his services was incalculable to us — but even more than his pictures we missed his cheerful personality. Walt could come into our office and make any problem seem smaller. Many fine pictures in this book give evidence of his service to us.

Many people are responsible for the publication of this book. We would like to thank first our **staff** and all of the people on campus who co-operated with them. Our thank you also go to **Dean George Kaludis**, our faculty adviser; to the **Faculty-Senate Committee on Publications and Communications**; **Harris and Ewing**, who did our senior pictures and our queens; to **Rideout and Stapp**, who photographed the residence groups; and to the **S. K. Smith Company**, who designed and manufactured our cover. A very special thank you must go to our printer, **American Yearbook Company**, and to their representative, **Lou Foye**, who saw us through countless crises, and without whose help and encouragement the "Terrapin" could not have gotten off the ground.

We sincerely hope that your copy of the 1961 "Terrapin" will be valuable to you for many years.
